Ranking Functions – 2005

- **ROW_NUMBER** – An incrementing number unique within a partition
- **RANK** – A number representing the rank of the ORDER BY values within a partition
- **DENSE_RANK** – A number representing the rank of the unique ORDER BY values within a partition
- **NTILE** – A number representing a bucket in which the data has been divided within a partition based on the value of the ORDER BY

Syntax

```
ROW_NUMBER | RANK | DENSE_RANK()
```

```
OVER([PARTITION BY <expression>] ORDER BY <expression>)
```

```
NTILE(<number of buckets>)
```

```
OVER([PARTITION BY <expression>] ORDER BY <expression>)
```
